Online Support Groups (Pregnancy After Loss Support) is available.

Pregnancy After Loss Support moderates online support groups on Facebook. These groups encourage

peer-to-peer support during the all stages of pregnancy after loss, including trying to conceive,

pregnancy, and parenting after loss. This program provides:- Online peer support groups

include:- Pregnancy after loss support group- Trying to conceive after loss support group- Parenting

after loss support group- Pregnancy after loss support group for dads- Pregnancy after first

trimester loss- Pregnancy after second trimester loss- Pregnancy after third trimester loss-

Pregnancy after infant and child death- Pregnancy after TFMR support group- Pregnancy after loss

with no living children- Pregnancy after loss of a multiple- Pregnancy after loss family support

group - grandparents, parents, and friends- Pregnancy after infertility and loss- New bereaved PALS

understands that there are also unique situations that could use extra support, so there are also groups for specific situations, including trimester of loss, no living children, termination for medical reasons, and infertility. PALS also moderate a group for dads and one for grandparents, family, and friends. The Facebook online support groups are closed groups. This means that only people who are members in the groups can see what post or comment. People on the friend's list may be able to see that they have joined the groups, though, either through the profile or through group recommendations from Facebook. Unfortunately, PALS has no control over those settings. To join a group, visit the Facebook page and select Groups, then select the group they would like to join..

Family Support Services (California MENTOR - Riverside Intensive Outpatient Mental Health) is available.

California MENTOR believes children belong in the family home whenever it is safe and possible.

Through our Family Support Services, we help families of youth at risk with complex mental health, behavioral and other needs overcome the challenges they face together. Our diverse, multilingual specialists support families from a wide range of backgrounds who may be facing:- Out-of-home placements or reunification- Trauma from substance abuse and domestic violence- Involvement with the

juvenile justice system- Behavioral and mental health challenges Family Support Services are provided by a specially trained Child and Family Team that develops a uniquely tailored Plan of Care (POC), based on the child's strengths and needs and respecting family culture and preferences. Our master's-level therapists create personalized plans and work with family members who play an active role in helping children achieve unique goals that may include:- Working through any crisis in a positive way.- Identifying a family's natural strengths and supports in the community that can help them continue moving forward.- Developing communication skills to strengthen family and community relationships. Depending on each family's unique needs, Family Support Services may use Family Centered Treatment® (FCT), an evidence-based model of family preservation designed to help families who are at risk learn, grow and interact in a positive way. At Riverside Intensive Outpatient Mental health, we deliver care consistent with that received at our main facility. We recognize that a high

percentage of our clients are better served close to their homes. To start, please visit our website to fill out our referral form or call us to initiate intake process. Serving Medi-Cal beneficiaries ages 0-21 and their families..

Veterans Crisis Line (Operation Red Wings Foundation) is available.

Operation Red Wings Foundation provides therapeutic Post-Traumatic Growth Program for Service Members (SM)/Vets from all military branches and service eras, along with their families, who are struggling with mild combat trauma, PTSD, mild traumatic brain injury, chronic pain issues and

caregiver stress. Our participants experience:- Accelerated Resolution Therapy- Trauma-Informed Yoga- Group Educational Classes- Alpha-Stim, and more. We will use multiple therapeutic tools not typically offered by government programs to focus on relief from the symptoms of invisible wounds. At the end of your session, we will help you decide which tools work the best for you and we will help you make a plan for continued healing once you get home. Our facilities are large, specially-designed houses in Crystal Beach, Texas and Fayetteville, North Carolina taking advantage of peaceful natural environments and designed to make you feel comfortable while encouraging comradery with the other participants. Operation Red Wings Foundation covers all expenses for each program with funds donated by generous sponsors, so there are no costs for those who attend and we will take care of your travel expenses. LSF Program Staff will coordinate with service members, veterans and unit commanders to make travel arrangements. For those who live nearby and drive to the facility, we offer mileage reimbursement. Visit our website to submit your online application. Upon receipt, you will be asked to supply a copy of your DD214 and a signed referral form from a healthcare provider stating that this program is appropriate for you at this point in your recovery process. You will then be contacted by our Behavioral Health Coordinator to discuss more details and to schedule your program..

Dual Diagnosis Residential Programs (Whiteside Manor) is available.

Many people in all walks of life experience drug and alcohol problems that limit their ability to fully enjoy life and also harm their family and friends. People are reluctant to address these difficulties even with their closest friends and family members. Many times they are not even aware that the problems exist or do not recognize the symptoms. Here at Whiteside Manor, trained drug and alcohol intervention staff are available to help coax your loved one into treatment. When a person is affected by both psychiatric illness and chemical dependency, they are suffering from co-occurring conditions, known as Dual Diagnosis. Psychiatric illness and chemical dependency impact an individual physically, psychologically, socially and spiritually. Whiteside Manor offers a residential treatment program that is centered on the complete individual. Our Dual Diagnosis services focus on mental health recovery and addiction recovery issues that may be afflicting an individual. The primary presenting problem of those we serve is specifically substance abuse with a

mental disorder/ illness secondary. Services include therapy groups made up of similarly situated, dually diagnosed clients. Groups are low-impact, highly supportive and non-confrontational. Psychiatric services are provided as well as medication monitoring and management. Clients learn about their dual disorders and also the symptoms and techniques for relapse prevention for both disorders. This program provides:- Residential treatment for men and women- Counseling- Addiction services- Mental health care.

is <https://www.google.com/maps/?q=2900+Adams+Street,+Riverside,+CA+92504/>.

Mental Health Services (Psychological Services of Riverside) is available.

Psychological Services of Riverside provides a range of evidence-based mental health services to individuals and families in the community. This program provides: Mental health care. Specific services include: Individual therapy, Couples and family therapy, Child and adolescent therapy, Group therapy, and Psychological testing. PSR offers in-person services at its office in Riverside, California, and remote services to any current resident of California. We currently offer services in both English and Spanish. PSR services are provided by pre-licensed doctoral trainees and licensed providers. The rates for pre-licensed clinicians start at or below the rates for comparable services of other mental health providers in the community. Licensed providers at PSR typically charge rates that are comparable to the going rate in the community. Both levels have sliding fee scales, and grant funding may be available to help lower costs even further based on special circumstances. A client's insurance status does not affect their ability to utilize PSR's sliding fee scale..

They

can help you transform your grief after loss into a positive, purposeful future while embracing your own strength and courage. As widows helping widows, they offer in-person and virtual support groups,

clubs and activities, travel opportunities, educational courses, mentoring programs, conferences, videos, podcasts, opportunities for advocacy and philanthropy, and more. This program provides: -

Support Groups- Emotional Support- Virtual Support They support widows of all ages, ethnic backgrounds, beliefs, faiths, partner statuses, gender identities, and loss circumstances. You are not alone. Widows receive services and support through their national, international, and virtual groups long after most become ineligible for traditional grief support. We advocate for, and work to advance, global support for widows—a movement of worldwide social significance that is often overlooked. MWC Program provides: Step One: Start by taking their Widow Empowerment Quiz to find out

where you are on the Hope, Heal, Grow, Lead healthy widowhood pathway. Then, plug into services specific to your unique stage in the process. Step Two: Free Resources to Connect - Support groups:

National, international, and in-person. Plus, a virtual group, virtual group in Spanish, and Widowed Survivors of Suicide virtual group. - Support network: Globally on all social sites. Facebook,

YouTube, Instagram, LinkedIn, Twitter- Free e-course: Start with their HOPE course - Clubs in a

Club: Book Club, Parenting Club, Art Club, Dating Club, and Travel Club for widows. Step Three: For-

Fee Resources to Grow - Widow Empowerment Events: Annually, both virtual and in-person. - Widow

Empowerment School of Thought (WESOT) virtual learning platform for widows Please visit their

WWP Talk (Wounded Warrior Project) is available.

Since 2013, the WWP Talk team has provided a listening ear and a safe, nonjudgmental outlet for warriors and their family members. Our team is committed to you and will collaborate set goals aimed at processing and overcoming challenges. During your participation, you'll build resilience, develop coping skills, reduce stress levels, and achieve goals that will improve your quality of life. Many who participate in the program also develop improved relationships with friends and loved ones. Our

goal-setting model is not only beneficial while participating in the program but can be applied to daily life situations well after you have completed the program. WWP Talk is a free nonclinical, telephonic, emotional support and goal-setting program. The program helps both warriors and family members plan individualized paths toward personal growth. Participants work one-on-one with a dedicated team member during weekly emotional support calls. Together, they set tangible SMART goals

and develop skills that lead to positive changes, like increased resilience, improved psychological well-being, and improved overall quality of life. To join the program, you must first register with us. For more information or to sign up for the program, call our Resource Center at 888.WWP.ALUM (997.2586) or 904.405.1213..

The phone number of Counseling Support to Nationwide CF Community (Cystic Fibrosis Research Institute) is 650-665-7576

The website for Counseling Support to Nationwide CF Community (Cystic Fibrosis Research Institute) is <https://www.cfri.org/education-support/psychosocial-support-programs/>.

Counseling Support to Nationwide CF Community (Cystic Fibrosis Research Institute) is available.

The Counseling Support to Nationwide CF Community program assists individuals and families struggling with cystic fibrosis. Through the counseling support program, participants will be provided the guidance, expertise, and support thanks to the help of well versed licensed therapists who understand CF. This program provides:- Individual and family counseling Children and adults with CF as well as their family members (parents, siblings, spouses/partners) are eligible to receive financial support for six individual therapy sessions per year with a licensed provider of their choice. CFRI will cover the cost of your insurance co-pay for six sessions, or pay up to \$120 per

session for six sessions if you have no insurance, or your provider does not accept insurance or is outside of your network. You can select a licensed therapist in your community (for a referral, you can ask your CF social worker). This program has limited funds and operates on a “first come first serve” basis. Due to high demand, the program often runs out of funding in the second half of the year. To ensure that your sessions are covered, please follow CFRI program procedures as outlined below:- Check in with CFRI staff: BEFORE sending us any invoices, contracts, or other documents, please contact Sabine Brants (, 650-665-7576) to check if there is funding available for your sessions. If CFRI has funding available, CFRI staff will send the required paperwork to you as well as your chosen provider. The paperwork provided to you needs to be completed BEFORE starting CFRI-supported sessions. - Wait for sessions to be approved: Once CFRI receives the completed paperwork from you and the provider, CFRI staff will let you know that you are approved to start your six CFRI-supported sessions. This program will not accept invoices that are submitted without prior approval.- Submit assessments and invoices: By participating in the program, you commit to take part in the brief evaluation process. At the first and last of the CFRI-supported sessions, the therapist will ask you to complete two short questionnaires, and submit them to CFRI along with the first and last invoice. Please notify CFRI immediately if you discontinue therapy for whatever reason so the money can be released and used to support other people with CF and their families. For more information on how to participate in CFRI’s Counseling Support Program, please email Sabine Brants: .

The website for Remaining Hopeful (National Coalition for Cancer Survivorship) is

<http://www.canceradvocacy.org/>.

Remaining Hopeful (National Coalition for Cancer Survivorship) is Not specified.

The National Coalition for Cancer Survivorship (NCCS) advocates for quality cancer care for all people touched by cancer and provides tools that empower people to advocate for themselves.

Founded

by and for cancer survivors, NCCS is a leader in advocating for policy changes that promote quality of care and quality of life after diagnosis. NCCS strongly believes in evidence-based advocacy that reflects the needs of cancer patients to effect policy change at the national level. Survivorship is the challenge faced daily by millions of Americans who have a history of cancer. Survivorship, however, is not just about long-term survival. Instead, it is about one's quality of life from diagnosis onward. It is living with, through, and beyond cancer. Remaining Hopeful presents a publication, "You Have the Right to Remain Hopeful" in order to provide general information and to serve as a resource for people experiencing a diagnosis of cancer. This resource represents the opinions of NCCS and is not designed to provide individual advice nor substitute for professional counsel. The publication addresses the following topics: • Cancer as a crisis • Cancer and fear •

Remaining positive • Family hope • Hoping for health care professionals It is important to think about your own hoping strategies and to be direct with family, friends and professional caregivers about what is most helpful to you with regard to using and maintaining hope. Never let anyone tell you that there is nothing further to hope for or that there is no hope. There is always something to hope for, and you, as an individual, have the right to determine for what, when and how you hope..
